Overview

McCain's P44 NEMA Controller Cabinet conforms to the National Electrical Manufacturer's Association (NEMA) Standards Publication TS 2-2003, Traffic Controller Assemblies with NTCIP requirements and represents a modern and state-of-the-art approach to traffic control. This robust cabinet is manufactured with the high quality standards and features found on all McCain controller cabinets. Available in both TS 1 and TS 2 versions, the flexible and modular design allows for replacement of all major components and assemblies.

Benefits

- Various detector racks can be configured for your unique specifications
- Large front door provides easy access to the cabinet's sizeable interior
- Drop-down technician's panel and load bay simplifies maintenance access
- Available in NEMA TS 1 and TS 2 versions to meet your requirements

Product Description

The McCain P44 NEMA Controller Cabinet provides for an eight phase, four pedestrian operation with four overlaps. Various detector racks are available to meet your specifications with many types available including, but not limited to, six, eight, 10, and 12-position. The TS 2 version also includes one position for a Bus Interface Unit (BIU) per Detector Rack. The Load Bay comes standard with 14 or 16 loadswitch positions for the TS 1 and TS 2, respectively.

The P44 cabinet features a drop-down technicians panel, police door, and load bay. Two adjustable shelves are included, and all terminals are of the barrier type.

A number of configuration options are available for both the TS 1 and TS 2 versions, please contact McCain to discuss options to meet your unique requirements.
